

Senior Respiratory Physiologist Permanent Contract - 37 hours per week

Would you like to work in an innovative sleep service in one of Ireland's largest acute Private Hospitals (part of St Vincent's Healthcare Group)?

An exciting opportunity has arisen for the **Permanent** position of **Senior Respiratory Physiologist** in St. Vincent's Private Hospital.

Role Description

The Respiratory Laboratory is a busy clinical laboratory that specialises in the diagnostic testing of patients with breathing disorders including those with sleep-related problems.

Tests vary in complexity from routine breathing tests and skin allergy tests, to more advanced procedures such as sleep studies and assessment of bronchial hyper-reactivity.

Essential Criteria

- Hold a degree in Clinical Measurement or equivalent or hold a Certificate in Medical Physics and Physiological Measurement.
- Have at least 3 years post graduate experience as a clinical physiologist (any discipline).
- Good communication skills are essential as the post involves a great deal of contact with patients and with other colleagues.
- Must be able to handle a high degree of responsibility and be able to complete a number of clinical and supervisory duties within the department.
- Eligibility to work in Ireland.

Desirable Criteria

- Have ability to work on own initiative or as part of a team.
- Previous experience at this level.
- Have at least three years post graduate experience in Pulmonary Function testing and /or in a Sleep Laboratory.

Informal enquiries please contact: - Chief Respiratory Physiologist, tel 01 260 9209
